A BILL

To amend provisions of title IX of the Farm Security and Rural Investment Act of 2002 relating to Federal procurement of biobased products and labeling of such products.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Market Incentives for
5 Biobased Products Act of 2007”.

6 **SEC. 2. FINDINGS.**

7 Congress finds the following:

1 (1) There is significant potential for replacing
2 petroleum-based products with products made using
3 farm-grown biomass.

4 (2) The biobased industry provides value-added
5 opportunities for farmers and environmentally
6 friendly options for consumers.

7 (3) The Federal Government can play an im-
8 portant role in the promotion of the biobased indus-
9 try through procurement of biobased products.

10 (4) A labeling program for biobased products
11 would provide consumers with basic, reliable infor-
12 mation about these products and raise awareness of
13 their environmental benefits.

14 (5) By developing the market for biobased
15 products, the Federal Government also encourages
16 increased investment and employment opportunities
17 in rural America.

18 (6) By reducing the use of petroleum and in-
19 creasing reliance on farm-grown raw materials, the
20 Nation will decrease its needs for imported petro-
21 leum.
